SECTION

01

Investment philosophy

What we aim for, and how we split the risk.

Diversify across risk, not just across assets.

01

Objective

Highest Sharpe over the 1-month T-bill, in all four regimes.

02

50 / 25 / 25 risk budget

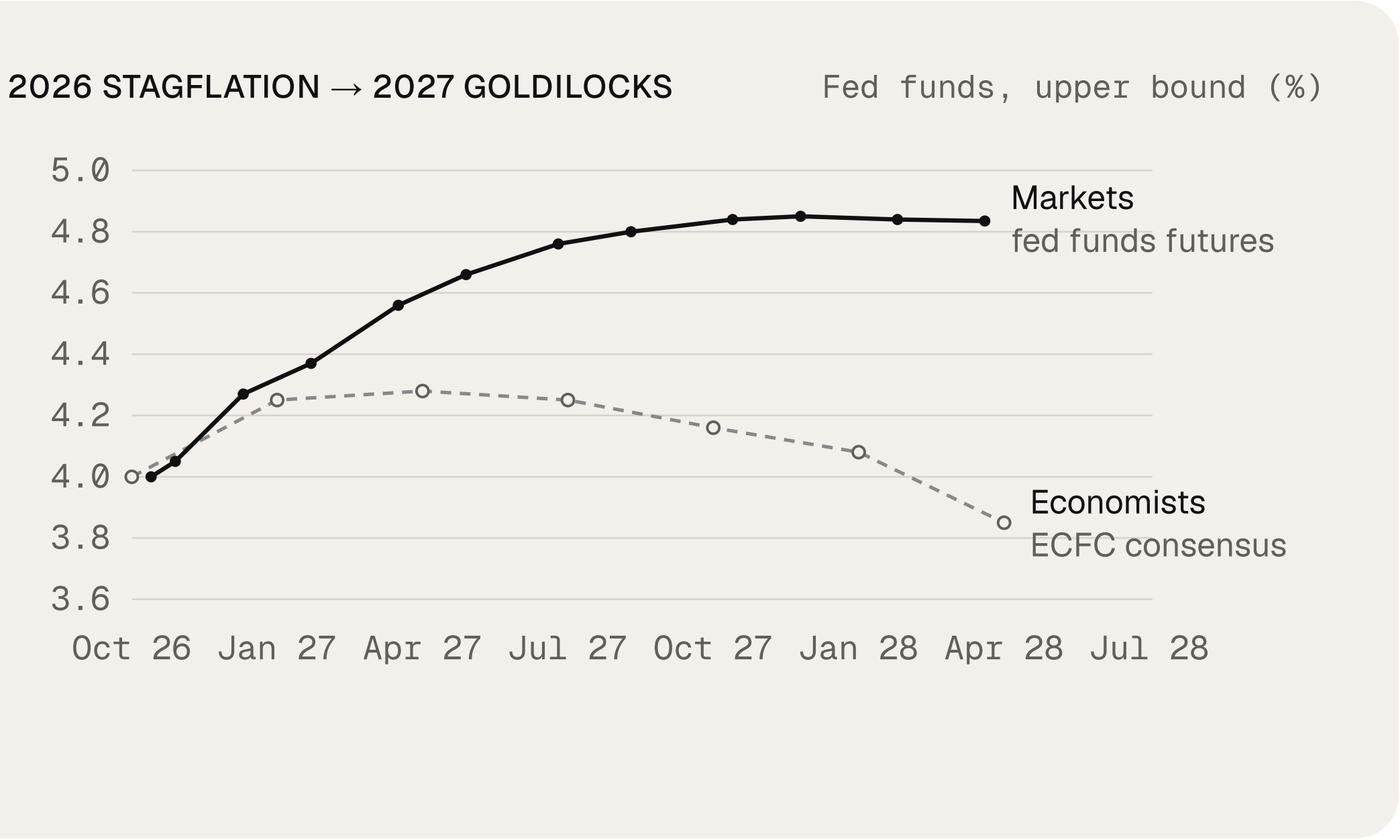

Equity gets half the risk; bonds and real assets a quarter each.

03

Risk, not capital

A dollar in equity moves the portfolio about 2.6 times as much as one in bonds.

Where we see the next twelve months

WHAT EACH PATH MEANS
